**Note 1—Summary of Significant Accounting Policies**

*Description of Business*

Costco Wholesale Corporation (Costco or the Company), a Washington corporation, and its subsidiaries operate membership warehouses based on the concept that offering members low prices on a limited selection of nationally-branded and private-label products in a wide range of merchandise categories will produce high sales volumes and rapid inventory turnover. At November 26, 2023, Costco operated 870 warehouses worldwide: 599 in the United States (U.S.) located in 47 states, Washington, D.C., and Puerto Rico, 108 in Canada, 40 in Mexico, 33 in Japan, 29 in the United Kingdom (U.K.), 18 in Korea, 15 in Australia, 14 in Taiwan, five in China, four in Spain, two in France, and one each in Iceland, New Zealand, and Sweden. The Company operates e-commerce websites in the U.S., Canada, the U.K., Mexico, Korea, Taiwan, Japan, and Australia.

*Basis of Presentation*

The condensed consolidated financial statements include the accounts of Costco and its wholly-owned subsidiaries. All material inter-company transactions among the Company and its consolidated subsidiaries have been eliminated in consolidation.

These unaudited condensed consolidated financial statements have been prepared in accordance with the instructions to Form 10-Q for interim financial reporting pursuant to the rules and regulations of the Securities and Exchange Commission (SEC). While these statements reflect all normal recurring adjustments that are, in the opinion of management, necessary for fair presentation of the results of the interim period, they do not include all of the information and footnotes required by U.S. generally accepted accounting principles (U.S. GAAP) for complete financial statements. Therefore, the interim condensed consolidated financial statements should be read in conjunction with the consolidated financial statements and notes included in the Company's Annual Report on Form 10-K for the fiscal year ended September 3, 2023.

*Fiscal Year End*

The Company operates on a 52/53 week fiscal year basis, with the fiscal year ending on the Sunday closest to August 31. Fiscal 2024 is a 52-week year ending on September 1, 2024. References to the first quarter of 2024 and 2023 relate to the 12-week fiscal quarters ended November 26, 2023, and November 20, 2022.

*Use of Estimates*

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. These estimates and assumptions take into account historical and forward-looking factors that the Company believes are reasonable. Actual results could differ from those estimates and assumptions.

*Reclassification*

Reclassifications were made to the condensed consolidated statement of cash flows for the first twelve weeks of fiscal 2023 to conform with current year presentation.

### Recent Accounting Pronouncements Not Yet Adopted

In November 2023, the FASB issued ASU 2023-07, which is intended to improve reportable segment disclosure requirements, primarily through additional disclosures about significant segment expenses. The standard is effective for fiscal years beginning after December 15, 2023, and interim periods within fiscal years beginning after December 15, 2024, with early adoption permitted. The amendments should be applied retrospectively to all prior periods presented in the financial statements. The Company is evaluating the disclosure requirements related to the new standard.

### Note 2—Investments

The Company's investments were as follows:

	Cost Basis	Unrealized Losses, Net	Recorded Basis
<b>November 26, 2023:</b>

At those dates, there were no available-for-sale securities in a material continuous unrealized-loss position. There were no sales of available-for-sale securities during the first quarter of 2024 or 2023.

The maturities of available-for-sale and held-to-maturity securities at November 26, 2023, are as follows:

### Note 3—Fair Value Measurement

#### Assets and Liabilities Measured at Fair Value on a Recurring Basis

The table below presents information regarding the Company's financial assets and financial liabilities that are measured at fair value on a recurring basis and indicate the level within the hierarchy reflecting the valuation techniques utilized.

	Level 2	
	November 26, 2023	September 3, 2023
Investment in government and agency securities	\$ 645	\$ 633
Forward foreign-exchange contracts, in asset position <sup>(1)</sup>	7	18
Forward foreign-exchange contracts, in (liability) position <sup>(1)</sup>	(16)	(7)
Total	\$ 636	\$ 644

(1) The asset and liability values are included in other current assets and other current liabilities, respectively, in the accompanying condensed consolidated balance sheets.

At November 26, 2023, and September 3, 2023, the Company did not hold any Level 1 or 3 financial assets or liabilities that were measured at fair value on a recurring basis. There were no transfers between levels during the first quarter of 2024 or 2023.

#### *Assets and Liabilities Measured at Fair Value on a Nonrecurring Basis*

Assets and liabilities recognized and disclosed at fair value on a nonrecurring basis include items such as financial assets measured at amortized cost and long-lived nonfinancial assets. These assets are measured at fair value if determined to be impaired. There were no material fair value adjustments to these items during the first quarter of 2024. During the first quarter of 2023, the Company recognized in merchandise costs a charge of \$93, primarily related to the impairment of certain leased assets associated with charter shipping activities.

#### **Note 4—Debt**

The carrying value of the Company's long-term debt consisted of the following:

Long-term debt, excluding current portion	\$ 5,866	\$ 5,377

(1) Net of unamortized debt discounts and issuance costs

The fair value of the Senior Notes is estimated using Level 2 inputs. Other long-term debt consists of Guaranteed Senior Notes issued by the Company's Japan subsidiary, valued using Level 3 inputs. In November 2023, our Japan subsidiary issued four Guaranteed Senior Notes, totaling approximately \$500, at fixed interest rates ranging from 1.400% to 2.120%. Interest is payable semi-annually, and maturity dates range from November 7, 2033, to November 7, 2043. The fair value of the Company's long-term debt, including the current portion, was approximately \$6,234 and \$5,738 at November 26, 2023, and September 3, 2023.

	Shares Repurchased (000s)		Average Price per Share		Total Cost
First quarter of 2024	288	\$	564.06	\$	162
First quarter of 2023	285	\$	495.94	\$	141

These amounts may differ from the accompanying condensed consolidated statements of cash flows due to changes in unsettled stock repurchases at the end of each quarter. Purchases are made from time to time, as conditions warrant, in the open market or in block purchases and pursuant to plans under SEC Rule 10b5-1.

- 2,726,000 time-based RSUs, which vest upon continued employment over specified periods and accelerate upon achievement of a long-service term;
- 69,000 performance-based RSUs granted to executive officers of the Company, for which the performance targets have been met. The awards vest upon continued employment over specified periods of time and upon achievement of a long-service term; and
- 90,000 performance-based RSUs granted to executive officers of the Company, subject to achievement of performance targets for fiscal 2024, as determined by the Compensation Committee of the Board of Directors after the end of the fiscal year. These awards are not included in the table below or in the amount of unrecognized compensation cost.

The following table summarizes RSU transactions during the first quarter of 2024:

The following table shows the amounts used in computing net income per share and the weighted average number of shares of basic and of potentially dilutive common shares outstanding (shares in 000s):

	12 Weeks Ended	
	November 26, 2023	November 20, 2022
Net income	\$ 1,589	\$ 1,364
Weighted average basic shares	443,827	443,837

#### Note 8—Commitments and Contingencies

##### Legal Proceedings

The Company is involved in many claims, proceedings and litigations arising from its business and property ownership. In accordance with applicable accounting guidance, the Company establishes an accrual for legal proceedings if and when those matters present loss contingencies that are both probable and reasonably estimable. There may be losses in excess of amounts accrued. The Company monitors those matters for developments that would affect the likelihood of a loss (taking into account where applicable indemnification arrangements concerning suppliers and insurers) and the accrued amount, if any, thereof, and adjusts the amount as appropriate. The Company has recorded immaterial accruals with

respect to certain matters described below, in addition to other immaterial accruals for matters not described below. If the loss contingency at issue is not both probable and reasonably estimable, the Company does not establish an accrual, but monitors for developments that make the contingency both probable and reasonably estimable. In each case, there is a reasonable possibility that a loss may be incurred, including a loss in excess of the applicable accrual. For matters where no accrual has been recorded, the possible loss or range of loss (including any loss in excess of the accrual) cannot, in the Company's view, be reasonably estimated because, among other things: the remedies or penalties sought are indeterminate or unspecified; the legal and/or factual theories are not well developed; and/or the matters involve complex or novel legal theories or a large number of parties.

## Note 9—Segment Reporting

The Company is principally engaged in the operation of membership warehouses through wholly owned subsidiaries in the U.S., Canada, Mexico, Japan, the U.K., Korea, Australia, Taiwan, China, Spain, France, Iceland, New Zealand, and Sweden. Reportable segments are largely based on management's organization of the operating segments for operational decisions and assessments of financial performance, which considers geographic locations. The material accounting policies of the segments are as described in the notes to the consolidated financial statements included in the Company's Annual Report filed on Form 10-K for the fiscal year ended September 3, 2023, and [Note 1](#) above. Inter-segment net sales and expenses have been eliminated in computing total revenue and operating income.

### **FORWARD-LOOKING STATEMENTS**

Certain statements contained in this document constitute forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. For these purposes, forward-looking statements are statements that address activities, events, conditions or developments that the Company expects or anticipates may occur in the future and may relate to such matters as net sales growth, changes in comparable sales, cannibalization of existing locations by new openings, price or fee changes, earnings performance, earnings per share, stock-based compensation expense, warehouse openings and closures, capital spending, the effect of adopting certain accounting standards, future financial reporting, financing, margins, return on invested capital, strategic direction, expense controls, membership renewal rates, shopping frequency, litigation, and the demand for our products and services. In some cases, forward-looking statements can be identified because they contain words such as “anticipate,” “believe,” “continue,” “could,” “estimate,” “expect,” “intend,” “likely,” “may,” “might,” “plan,” “potential,” “predict,” “project,” “seek,” “should,” “target,” “will,” “would,” or similar expressions and the negatives of those terms. Such forward-looking statements involve risks and uncertainties that may cause actual events, results or performance to differ materially from those indicated by such statements. These risks and uncertainties include, but are not limited to, domestic and international economic conditions, including exchange rates, inflation or deflation, the effects of competition and regulation, uncertainties in the financial markets, consumer and small business spending patterns and debt levels, breaches of security or privacy of member or business information, conditions affecting the acquisition, development, ownership or use of real estate, capital spending, actions of vendors, rising costs associated with employees (generally including health-care costs), energy and certain commodities, geopolitical conditions (including tariffs and the Ukraine conflict), the ability to maintain effective internal control over financial reporting, regulatory and other impacts related to climate change, public-health related factors, and other risks identified from time to time in the Company’s public statements and reports filed with the Securities and Exchange Commission. Forward-looking statements speak only as of the date they are made, and the Company does not undertake to update these statements, except as required by law.

### **OVERVIEW**

The following Management’s Discussion and Analysis of Financial Condition and Results of Operations (MD&A) is intended to promote understanding of the results of operations and financial condition. MD&A is provided as a supplement to, and should be read in conjunction with, our condensed consolidated financial statements and the accompanying Notes to Financial Statements (Part I, Item 1 of this Form 10-Q), as well as our consolidated financial statements, the accompanying Notes to Financial Statements, and the related Management’s Discussion and Analysis of Financial Condition and Results of Operations in our fiscal year 2023 Form 10-K, filed with the United States Securities and Exchange Commission on October 11, 2023.

We operate membership warehouses and e-commerce websites based on the concept that offering our members low prices on a limited selection of nationally-branded and private-label products in a wide range of categories will produce high sales volumes and rapid inventory turnover. When combined with the operating efficiencies achieved by volume purchasing, efficient distribution and reduced handling of merchandise in no-frills, self-service warehouse facilities, these volumes and turnover enable us to operate profitably at significantly lower gross margins (net sales less merchandise costs) than most other retailers. We often sell inventory before we are required to pay for it, even while taking advantage of early payment discounts.

We believe that the most important driver of our profitability is increasing net sales, particularly comparable sales. Net sales includes our core merchandise categories (foods and sundries, non-foods, and fresh foods), warehouse ancillary (gasoline, pharmacy, optical, food court, hearing aids, and tire installation) and other businesses (e-commerce, business centers, travel and other). Comparable sales is

defined as net sales from warehouses open for more than one year, including remodels, relocations and expansions, and sales related to e-commerce websites operating for more than one year. The measure is intended as supplemental information and is not a substitute for net sales presented in accordance with U.S. generally accepted accounting principles (U.S. GAAP). Comparable sales growth is achieved through increasing shopping frequency from new and existing members and the amount they spend on each visit (average ticket). Sales comparisons can also be particularly influenced by certain factors that are beyond our control: fluctuations in currency exchange rates (with respect to our international operations); inflation or deflation and changes in the cost of gasoline and associated competitive conditions. The higher our comparable sales exclusive of these items, the more we can leverage our SG&A expenses, reducing them as a percentage of sales and enhancing profitability. Generating comparable sales growth is foremost a question of making available to our members the right merchandise at the right prices, a skill that we believe we have repeatedly demonstrated over the long-term. Another substantial factor in net sales growth is the health of the economies in which we do business, including the effects of inflation or deflation, especially the United States. Net sales growth and gross margins are also impacted by our competition, which is vigorous and widespread, across a wide range of global, national and regional wholesalers and retailers, including those with e-commerce operations. While we cannot control or reliably predict general economic health or changes in competition, we believe that we have been successful historically in adapting our business to these changes, such as through adjustments to our pricing and merchandise mix, including increasing the penetration of our private-label items, and through online offerings.

Our philosophy is to provide our members with quality goods and services at competitive prices. We do not focus in the short-term on maximizing prices charged, but instead seek to maintain what we believe is a perception among our members of our “pricing authority” – consistently providing the most competitive values. Our investments in merchandise pricing may include reducing prices on merchandise to drive sales or meet competition and holding prices steady despite cost increases instead of passing the increases on to our members, all negatively impacting gross margin and gross margin as a percentage of net sales (gross margin percentage).

We believe our gasoline business enhances traffic in our warehouses, but it generally has a lower gross margin percentage and lower SG&A expense, relative to our non-gasoline businesses. A higher penetration of gasoline sales will generally lower our gross margin percentage. Rapidly changing gasoline prices may significantly impact our near-term net sales growth. Generally, rising gasoline prices benefit net sales growth which, given the higher sales base, negatively impacts our gross margin percentage but decreases our SG&A expenses as a percentage of net sales. A decline in gasoline prices has the inverse effect.

Government actions in various countries relating to tariffs, particularly China and the United States, have affected the costs of some of our merchandise. The degree of our exposure is dependent on (among other things) the type of goods, rates imposed, and timing of the tariffs. Higher tariffs could adversely impact our results.

We also achieve net sales growth by opening new warehouses. As our warehouse base grows, available and desirable sites become more difficult to secure, and square footage growth becomes a comparatively less substantial component of growth. The negative aspects of such growth, however, including lower initial operating profitability relative to existing warehouses and cannibalization of sales at existing warehouses when openings occur in existing markets, are continuing to decline in significance as they relate to the results of our total operations. Our rate of square footage growth is generally higher in foreign markets, due to the smaller base in those markets, and we expect that to continue. Our e-commerce business, domestically and internationally, generally has a lower gross margin percentage than our warehouse operations.

The membership format is an integral part of our business and has a significant effect on our profitability. This format is designed to reinforce member loyalty and provide continuing fee revenue. The extent to which we achieve growth in our membership base, increase the penetration of our Executive members,

and sustain high renewal rates materially influences our profitability. Our paid-membership growth rate may be adversely impacted when warehouse openings occur in existing markets as compared to new markets.

Our financial performance depends heavily on controlling costs. While we believe that we have achieved successes in this area, some significant costs are partially outside our control, particularly health care and utility expenses. With respect to the compensation of our employees, our philosophy is not to seek to minimize their wages and benefits. Rather, we believe that achieving our longer-term objectives of reducing employee turnover and enhancing employee satisfaction requires maintaining compensation levels that are better than the industry average for much of our workforce. This may cause us, for example, to absorb costs that other employers might seek to pass through to their workforces. Because our business operates on very low margins, modest changes in various items in the consolidated statements of income, particularly merchandise costs and SG&A expenses, can have substantial impacts on net income.

Our operating model is generally the same across our U.S., Canadian, and Other International operating segments (see [Note 9](#) to the consolidated financial statements included in Part I, Item 1, of this Report). Certain operations in the Other International segment have relatively higher rates of square footage growth, lower wage and benefit costs as a percentage of sales, less or no direct membership warehouse competition, or lack e-commerce or business delivery.

In discussions of our consolidated operating results, we refer to the impact of changes in foreign currencies relative to the U.S. dollar, which are differences between the foreign-exchange rates we use to convert the financial results of our international operations from local currencies into U.S. dollars. This impact of foreign-exchange rate changes is calculated based on the difference between the current and prior period's exchange rates. The impact of changes in gasoline prices on net sales is calculated based on the difference between the current and prior period's average price per gallon sold. Results expressed excluding the impacts of foreign exchange and gasoline prices are intended as supplemental information and are not a substitute for net sales presented in accordance with U.S. GAAP and should be reviewed in conjunction with results reported in accordance with U.S. GAAP.

Our fiscal year ends on the Sunday closest to August 31. References to the first quarter of 2024 and 2023 relate to the 12-week fiscal quarters ended November 26, 2023, and November 20, 2022. Certain percentages presented are calculated using actual results prior to rounding.

Highlights for the first quarter of 2024 versus 2023 include:

- Net sales increased 6% to \$56,717, driven by a 4% increase in comparable sales and sales at 25 net new warehouses opened since the end of the first quarter of 2023;
- Membership fee revenue increased 8% to \$1,082, driven by new member sign-ups, upgrades to Executive Membership, and a higher renewal rate;
- Gross margin percentage increased 43 basis points, driven primarily by our warehouse operations and other businesses and the absence of a charge of \$93, \$0.15 per diluted share, predominantly related to the discontinuation of our charter shipping activities, which was recorded in the first quarter of 2023;
- SG&A expenses as a percentage of net sales increased 25 basis points, primarily due to increased costs in warehouse operations and other businesses, including the impact of wage increases in March and September 2023;
- The provision for income taxes in the first quarter of 2024 was positively impacted by a benefit related to stock compensation of \$44, \$0.10 per diluted share, compared to \$53, \$0.12 per diluted share, in the first quarter of 2023;
- Net income was \$1,589, \$3.58 per diluted share, compared to \$1,364, \$3.07 per diluted share in 2023;
- A quarterly cash dividend of \$1.02 per share was declared on October 18, 2023, and paid on November 17, 2023; and
- Subsequent to the end of the quarter, on December 13, 2023, the Board of Directors declared a special cash dividend of \$15.00 per share, payable January 12, 2024.

### Net Sales

Net sales increased \$3,280 or 6%, during the first quarter of 2024. The improvement was attributable to an increase in comparable sales of 4%, and sales at the 25 net new warehouses opened since the end of the first quarter of 2023. Sales increased \$2,921, or 7% in core merchandise categories, led by fresh foods and foods and sundries. Sales in warehouse ancillary and other businesses increased \$359, or 3%, led by pharmacy.

During the first quarter of 2024, lower gasoline prices negatively impacted net sales by \$341, 64 basis points, compared to 2023, with a 4% decrease in the average price per gallon. Changes in foreign currencies relative to the U.S. dollar positively impacted net sales by approximately \$195, 36 basis points, compared to the first quarter of 2023, attributable to our Other International operations, partially offset by our Canadian operations.

### Comparable Sales

Comparable sales increased 4% in the first quarter of 2024 and were positively impacted by increases in shopping frequency, partially offset by a slight decrease in average ticket.

### Membership Fees

	12 Weeks Ended	
	November 26, 2023	November 20, 2022
Membership fees	\$ 1,082	\$ 1,000
Membership fees increase	8 %	6 %
Total paid members (000s)	72,000	66,900
Total cardholders (000s)	129,500	120,900

Membership fee revenue increased 8%, driven by new member sign-ups, upgrades to Executive Membership, and a higher renewal rate. At the end of the first quarter of 2024, our renewal rates were 92.8% in the U.S. and Canada and 90.5% worldwide. Renewal rates benefited from higher penetration of Executive members. Our renewal rate, which excludes affiliates of Business members, is a trailing calculation that captures renewals during the period seven to eighteen months prior to the reporting date.

We account for membership fee revenue on a deferred basis, recognized ratably over the one-year membership period.

### Gross Margin

	12 Weeks Ended	
	November 26, 2023	November 20, 2022
Net sales	\$ 56,717	\$ 53,437
Less merchandise costs	50,457	47,769
Gross margin	\$ 6,260	\$ 5,668
Gross margin percentage	11.04 %	10.61 %

Gross margin percentage increased 43 basis points. Excluding the impact of gasoline price deflation on net sales, gross margin percentage was 10.97%, an increase of 36 basis points. The 36 basis-point increase was positively impacted by: 22 basis points related to our warehouse ancillary and other businesses, primarily gasoline and e-commerce; 17 basis points due to the absence of a charge related to the discontinuation of our charter shipping activities that was recorded in the first quarter of 2023; and three basis points due to a LIFO benefit. These were partially offset by: three basis points due to core merchandise categories, predominantly fresh foods; and three basis points due to increased 2% rewards.

The gross margin in core merchandise categories, when expressed as a percentage of core merchandise sales (rather than total net sales), increased five basis points. The increase was primarily due to non-foods, partially offset by fresh foods and foods and sundries. This measure eliminates the impact of changes in sales penetration and gross margins from our warehouse ancillary and other businesses.

Gross margin on a segment basis, when expressed as a percentage of the segment's own sales and excluding the impact of changes in gasoline prices on net sales (segment gross margin percentage), increased across all segments. Our U.S. segment performed similarly to the results above. The increases in our Canadian and Other International segments were primarily due to increases in warehouse ancillary and other businesses and core merchandise categories. All segments were negatively impacted by increased 2% rewards.

### **Selling, General and Administrative Expenses**

	12 Weeks Ended	
	November 26, 2023	November 20, 2022
SG&A expenses	\$ 5,358	\$ 4,917
SG&A expenses as a percentage of net sales	9.45 %	9.20 %

SG&A expenses as a percentage of net sales increased 25 basis points. SG&A expenses as a percentage of net sales excluding the impact of gasoline price deflation was 9.39%, an increase of 19 basis points. The comparison to last year was negatively impacted by 14 basis points in warehouse operations and other businesses which included the impact of wage increases in March and September 2023. Stock compensation and preopening costs were each higher by two basis points, and central operating costs were higher by one basis point.

### **Interest Expense**

Foreign-currency transaction gains (losses), net	3	(9)
Other, net	3	8
Interest income and other, net	\$ 160	\$ 53

The increase in interest income in the first quarter was due to higher global interest rates and higher average cash and investment balances. Foreign-currency transaction gains (losses), net, include revaluation or settlement of monetary assets and liabilities by our Canadian and Other International operations and mark-to-market adjustments for forward foreign-exchange contracts. See Derivatives and Foreign Currency sections in Item 8, Note 1 of our Annual Report on Form 10-K, for the fiscal year ended September 3, 2023.

The effective tax rate for the first quarter of 2024 was impacted by net discrete tax benefits of \$40, primarily due to excess tax benefits related to stock compensation. Excluding discrete net tax benefits, the tax rate was 26.4% for the first quarter of 2024.

The effective tax rate for the first quarter of 2023 was impacted by net discrete tax benefits of \$56, primarily due to excess tax benefits related to stock compensation. Excluding discrete net tax benefits, the tax rate was 26.1% for the first quarter of 2023.

**LIQUIDITY AND CAPITAL RESOURCES**

The following table summarizes our significant sources and uses of cash and cash equivalents:

	12 Weeks Ended	
	November 26, 2023	November 20, 2022
Net cash provided by operating activities	\$ 4,651	\$ 2,610
Net cash used in investing activities	(366)	(1,057)
Net cash used in financing activities	(974)	(863)

Our primary sources of liquidity are cash flows from operations, cash and cash equivalents, and short-term investments. Cash and cash equivalents and short-term investments were \$17,864 and \$15,234 at November 26, 2023, and September 3, 2023. Of these balances, unsettled credit and debit card receivables represented approximately \$2,603 and \$2,282 at November 26, 2023, and September 3, 2023. These receivables generally settle within four days.

Material contractual obligations arising in the normal course of business primarily consist of purchase obligations, long-term debt and related interest payments, leases, and construction and land purchase obligations.

Purchase obligations consist of contracts primarily related to merchandise, equipment, and third-party services, the majority of which are due in the next 12 months. Construction and land purchase obligations consist of contracts primarily related to the development and opening of new and relocated warehouses, the majority of which (other than leases) are due in the next 12 months.

Management believes that our cash and investment position and operating cash flows with capacity under existing and available credit agreements will be sufficient to meet our liquidity and capital requirements for the foreseeable future. We believe that our U.S. current and projected asset position is sufficient to meet our U.S. liquidity requirements.

***Cash Flows from Operating Activities***

Net cash provided by operating activities totaled \$4,651 in the first quarter of 2024, compared to \$2,610 in the first quarter of 2023. Our cash flow provided by operations is primarily from net sales and membership fees. Cash flow used in operations generally consists of payments to merchandise suppliers, warehouse operating costs, including payroll and employee benefits, utilities, and credit and debit card processing fees. Cash used in operations also includes payments for income taxes. Changes in our net investment in merchandise inventories (the difference between merchandise inventories and accounts payable) is impacted by several factors, including inventory levels and turnover, the forward deployment of inventory to accelerate delivery times, payment terms with suppliers, and early payments to obtain discounts.

***Cash Flows from Investing Activities***

Net cash used in investing activities totaled \$366 in the first quarter of 2024, compared to \$1,057 in the first quarter of 2023, and is primarily related to capital expenditures. Net cash from investing activities also includes purchases and maturities of short-term investments.

***Capital Expenditure Plans***

Our primary requirements for capital are acquiring land, buildings, and equipment for new and remodeled warehouses. Capital is also required for information systems, manufacturing and distribution facilities, initial warehouse operations, and working capital. In the first quarter of 2024, we spent \$1,040 on capital expenditures, and it is our current intention to spend approximately \$4,400 to \$4,600 during fiscal 2024. These expenditures are expected to be financed with cash from operations, existing cash and cash equivalents, and short-term investments. We opened 10 new warehouses, including one relocation, in the

first quarter of 2024 and plan to open 23 additional new warehouses, including one relocation, in the remainder of fiscal 2024. There can be no assurance that current expectations will be realized, and plans are subject to change upon further review of our capital expenditure needs and the economic environment.

### ***Cash Flows from Financing Activities***

Net cash used in financing activities totaled \$974 in the first quarter of 2024, compared to \$863 in the first quarter of 2023. Cash flow used in financing activities during the first quarter of 2024 was primarily related to the payment of dividends, withholding taxes on stock-based awards, and repurchases of common stock. In November 2023, our Japanese subsidiary issued four Guaranteed Senior Notes totaling approximately \$500 at fixed interest rates ranging from 1.400% to 2.120%.

#### ***Dividends***

A quarterly cash dividend of \$1.02 per share was declared on October 18, 2023, payable to shareholders of record on November 3, 2023, which was paid on November 17, 2023.

Subsequent to the end of the quarter, on December 13, 2023, the Board of Directors declared a special cash dividend of \$15.00 per share, payable January 12, 2024, to shareholders of record as of the close of business on December 28, 2023. The aggregate amount of payments will be approximately \$6.7 billion.

#### ***Share Repurchase Program***

On January 19, 2023, the Board of Directors authorized a share repurchase program in the amount of \$4,000, which expires in January 2027. During the first quarter of 2024 and 2023, we repurchased 288,000 and 285,000 shares of common stock, at an average price per share of \$564.06 and \$495.94, totaling approximately \$162 and \$141. These amounts may differ from the accompanying condensed consolidated statements of cash flows due to changes in unsettled repurchases at the end of a quarter. Purchases are made from time to time, as conditions warrant, in the open market or in block purchases, pursuant to plans under SEC Rule 10b5-1. Repurchased shares are retired, in accordance with the Washington Business Corporation Act. The remaining amount available to be purchased under our approved plan was \$3,401 at the end of the first quarter.

### ***Bank Credit Facilities and Commercial Paper Programs***

We maintain bank credit facilities for working capital and general corporate purposes. At November 26, 2023, we had borrowing capacity under these facilities of \$1,245. Our international operations maintain \$757 of this capacity under bank credit facilities, of which \$163 is guaranteed by the Company. Short-term borrowings outstanding under the bank credit facilities, which are included in other current liabilities on the consolidated balance sheets, were immaterial at the end of the first quarter of 2024 and at the end of fiscal 2023.

The Company has letter of credit facilities, for commercial and standby letters of credit, totaling \$223. The outstanding commitments under these facilities at the end of the first quarter of 2024 totaled \$188, most of which were standby letters of credit that do not expire or have expiration dates within one year. The bank credit facilities have various expiration dates, most within one year, and we generally intend to renew these facilities. The amount of borrowings available at any time under our bank credit facilities is reduced by the amount of standby and commercial letters of credit outstanding.

### ***Critical Accounting Estimates***

The preparation of our consolidated financial statements in accordance with U.S. GAAP requires that we make estimates and judgments.
